## Skills

- ReactJS
- Ruby on Rails
- Java
- HTML
- SCSS
- XML
- C#
- Git

## Language

English

Hebrew

German

## Experience

### 2021 - present

Phytech | Kfar Saba, Israel

#### Full stack Developer

Full Stack Developer at a start-up focused on developing technology to help growers manage and optimize production by keeping them connected to their plants.

Developed front-end web applications using ReactJS, utilizing yarn package manager and webpack.

Worked as a back-end developer using Ruby on Rails and PostgreSQL.

### 2020

RenewSenses | Jerusalem, Israel

#### Android Developer

Android Developer at a start-up dedicated to developing a smart cane for the visually impaired, utilizing machine learning for real-time object detection.

Employed technologies such as Firebase, Tesseract for English and Hebrew OCR, TensorFlow as a ML platform, and OpenCV for image manipulation.

### 2018 - 2019

SafeDK (Acquired by AppLovin | Herzeliya, Israel)

#### Full Stack Web Developer

Full Stack Web Developer at a start-up focused on analyzing, monitoring, and optimizing third-party SDKs.

Developed front-end applications using ReactJS, utilizing webpack, Babel, and npm.

Worked as a back-end developer using Ruby on Rails, with experience in PostgreSQL, Elasticsearch, and AWS.

## Education

### Bachelor of Science, Computer Science

#### Sapir College

2014 - 2017
